

Lab 1 GSI signoff sheet.

NAMES: _____

- ¶1.** Have your GSI check that your code is flashing the LED at 1Hz.

- ¶2.** Have your GSI check that your LEDs are properly controlled by the pot. Also show your sketch that uses DDRx and PORTx to control the LEDs.

- ¶3.** Have your GSI check your connections.

- ¶4.** Demonstrate the working motor-control code to your GSI. Show what the motor outputs look like on an O-scope.

- ¶5.** Demonstrate your working motor (complete with an idle option) to your GSI.
